Re: SB 17 (Padilla) Support

AT&T is pleased to support Senator Padilla's Senate Bill 17 and requests that you sign this bill into law. As passed by the Legislature, this bill requires the California Public Utilities Commission (CPUC) and the electric companies to develop a smart grid deployment system for California.

AT&T supports the public policy approach that Senator Padilla has taken in SB 17. The bill provides for the flexible deployment of smart grid products, technologies, and services from a variety of sources.

We applaud Senator Padilla's efforts and his focus on promoting the use of technology. SB 17 will enable consumers to monitor energy consumption, enable utilities to improve transmission efficiency and allow all Californians to make better and smarter decisions regarding their energy usage.

SB 17 received unanimous support as it moved through the legislative process. For all of the above reasons, we respectfully request that you sign SB 17 into law.

Sincerely,

William H. Devine

Regarding: SB 17 (Padilla): Smart Grid Electrical Systems
Position: SUPPORT

Dear Governor Schwarzenegger:

The City of Los Angeles supports and requests your signature on SB 17 (Padilla), which would require utilities to develop Smart Grid deployment plans to meet the state's ambitious energy efficiency and climate change goals, while also streamlining the transmission of electricity.

The City is fully committed to implementing a Smart Grid and recognizing the deployment of a comprehensive and effective Smart Grid solution is an important step in improving service to its customers while also meeting its conservation and efficiency goals.

For these reasons, the City of Los Angeles urges you to sign SB 17 (Padilla). Please direct any further questions regarding the City's position to our office of Legislative and Intergovernmental Relations in Sacramento at (916) 321-5500.

Sincerely,

Jim DeBoo
Chief Legislative Representative
Office of Mayor Antonio R. Villaraigosa
City of Los Angeles
